

Big Creek Bus Tour & Stream Monitoring

◇ Free and open to the public ◇

Learn about our local waterways, how we assess their quality, and how they impact the Cuyahoga River and Lake Erie.

Each program begins at
10:00 AM
Choose from 3 dates:

Monday, July 29

South Brooklyn Branch
4303 Pearl Road 44109

Friday, August 2

Fulton Branch
3545 Fulton Road 44109

Saturday, August 10

South Branch
3096 Scranton Road 44113

The 3-hour program includes lunch in the park (pizza and salad) before returning to the library.

The program is free but registration is required, as space is limited to 29 people each date.

Minors must be accompanied by an adult.

Meet at one of three Cleveland Public Library branches for a short presentation followed by a narrated tour to Memphis Picnic Area in Cleveland Metroparks' Big Creek Reservation. Big Creek, running through the west side of Cleveland, is a major tributary to the Cuyahoga River.

In the park we'll collect water samples, and measure and compare the physical, chemical and biological characteristics of the East and West branches of Big Creek with professionals involved in watershed stewardship.

Bring rubber boots if you have them and be ready to get your feet wet (only if you choose). Have fun as citizen scientists!
